INSTRUCTIONS

Country of location — If the affiliate is engaged in petroleum shipping, other water transportation, or oil and gas drilling, and has operations spanning more than one country, use country of incorporation for country of location. For example, classify in country of incorporation an oil drilling rig that moves from country to country during the year.

Primary industry code (based on sales or gross operating revenues) — Provide the 4-digit ISI code in the industry group that accounts for the largest amount of the affiliate's sales. A list and a full explanation of the ISI codes are given in the **Guide to Industry** Classifications for International Surveys, 2017 located at www.bea.gov/naics2017. A summary list of ISI codes is provided on pages 5 and 6. To be considered a holding company (ISI code 5512), income from equity investments must be more than 50 percent of total income.

Number of employees — Employees on the payroll at the end of FY 2021 including part-time employees, but excluding temporary and contract employees not included on your payroll records. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of employees on the payroll at the end of FY 2021. If the number of employees at the end of FY 2021 (or when the count was taken) was unusually high or low due to temporary factors (e.g., a strike), enter the number of employees that reflects normal operations. If the number of employees fluctuates widely during the year due to seasonal business variations, report the average number of employees on the payroll during FY 2021. Base such an average on the number of employees on the payroll at the end of each pay period, month or quarter. If precise figures are not available, give your best estimate.

U.S. Reporter's Percentage of Ownership in the Foreign Affiliate: Calculation of ownership percentage — A U.S.
Reporter's ownership interest in a foreign business enterprise may be directly held, indirectly held, or both. It is directly held if the U.S. Reporter

itself holds the ownership interest in the foreign business enterprise. It is indirectly held if the U.S. Reporter holds an ownership interest in another foreign business enterprise that, in turn, owns the given foreign business enterprise. The U.S. Reporter must sum all direct and indirect lines of ownership interest in the foreign business enterprise to determine its ownership interest. Note — An associated group is deemed to be one U.S. Reporter. *See Instruction Booklet*, *Part II.C.*

A U.S. Reporter's percentage of indirect ownership interest in a given foreign business enterprise is the product of the direct ownership percentage that the U.S. Reporter has in the first foreign business enterprise in the ownership chain, multiplied by that first enterprise's direct ownership percentage in the second enterprise in the chain, multiplied by the direct ownership percentages for all other intervening enterprises in the ownership chain, multiplied by the last intervening enterprise's direct ownership percentage in the given foreign business enterprise.

Sales or Gross Operating Revenues of Foreign Affiliate — Report gross operating revenues or gross sales minus returns, allowances, and discounts. **EXCLUDE** sales or consumption taxes levied directly on the consumer. **EXCLUDE** net value added and excise taxes levied on manufacturers, wholesalers, and retailers.

Finance and leasing companies with ISI codes 5221, 5223, 5224, 5229, 5231, 5238, 5252, or 5331 report interest income. Insurance companies with ISI codes 5243 or 5249 report gross investment income. *Dealers in financial instruments and finance, insurance, and real estate companies see* **Special Instructions** below.

Holding companies (ISI code 5512) must show total income. ISI code 5512 (holding company), is an invalid primary industry code if more than 50 percent of income generated, or expected to be generated, by the affiliate is from non-holding company activities.

RESEARCH AND DEVELOPMENT

R&D is planned, creative work aimed at discovering new knowledge or developing new or significantly improved goods and services. This includes:

Basic research is the pursuit of new scientific knowledge or understanding that does not have specific immediate commercial objectives, although it may be in fields of present or potential commercial interest.

Applied research applies the findings of basic research or other existing knowledge toward discovering new scientific knowledge that has specific commercial objectives with respect to new products, services, processes, or methods.

Development is the systematic use of the knowledge or understanding gained from research or practical experience directed toward the production or significant improvement of useful products, services, processes, or methods, including the design and development of prototypes, materials, devices, and systems.

R&D includes the activities described above whether assigned to separate R&D organizational units of the company or carried out by company laboratories and technical groups not a part of an R&D organization.

EXCLUDE R&D expenditures for:

- Costs for routine product testing, quality control, and technical services unless they are an integral part of an R&D project
- Market research
- Efficiency surveys or management studies
- \bullet Literary, artistic, or historical projects, such as films, music, or books and other publications
- Prospecting or exploration for natural resources

INCLUDE wages, salaries, and related costs; materials and supplies consumed; depreciation on R&D property and equipment, cost of computer software used in R&D activities; utilities, such as telephone, electricity, water, and gas; travel costs and professional dues; property taxes and other taxes (except income taxes) incurred on account of the R&D organization or the facilities they use; insurance expenses; maintenance and repair, including maintenance of buildings and grounds; company overhead including: personnel, accounting, procurement and inventory, and salaries of research executives not on the payroll of the R&D organization.

EXCLUDE capital expenditures, expenditures for tests and evaluations once a prototype becomes a production model, patent expenses, and income taxes and interest.
