## Activities of U.S. Multinational Enterprises, 2022

Worldwide employment by U.S. multinational enterprises increased 2.2 percent to 44.3 million workers in 2022 (preliminary) from 43.3 million workers in 2021 (revised), according to statistics released today by the U.S. Bureau of Economic Analysis on the operations and finances of U.S. parent companies and their foreign affiliates.

Employment in the United States by U.S. parents increased 2.5 percent to 30.2 million workers in 2022 (table 1). U.S. parents accounted for 68.3 percent of worldwide employment by U.S. multinational enterprises (MNEs), up from 68.1 percent in 2021 (chart 1). Employment abroad by majority-owned foreign affiliates of U.S. MNEs increased 1.5 percent to 14.0 million workers and accounted for 31.7 percent of employment by U.S. MNEs worldwide.

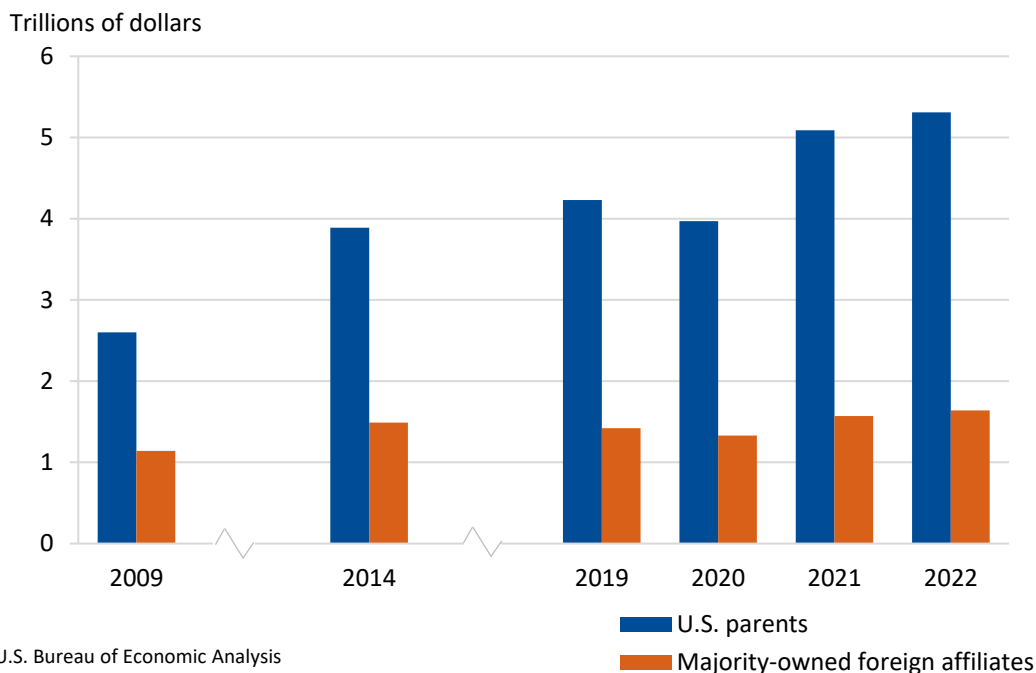

**Chart 1. Employment by U.S. Multinational Enterprises**

U.S. parents accounted for 22.6 percent of total private industry employment in the United States in 2022, down from 23.1 percent in 2021. Employment by U.S. parents was largest in manufacturing, in retail trade, and in “other industries,” which was led by transportation and warehousing. Employment abroad by majority-owned foreign affiliates was largest in India, Mexico, and the United Kingdom (table 4).

Worldwide current-dollar value added of U.S. MNEs increased 4.4 percent to \$7.0 trillion. Value added by U.S. parents, a measure of their direct contribution to U.S. gross domestic product, increased 4.3 percent to \$5.3 trillion (table 1). U.S. parents accounted for 23.3 percent of total U.S. private-industry value added, down from 24.5 percent in 2021. Majority-owned foreign affiliate value added increased 4.6 percent to \$1.6 trillion (chart 2). Value added by majority-owned foreign affiliates was largest in the United Kingdom, Canada, and Ireland (table 3).

**Chart 2. Value Added by U.S. Multinational Enterprises**

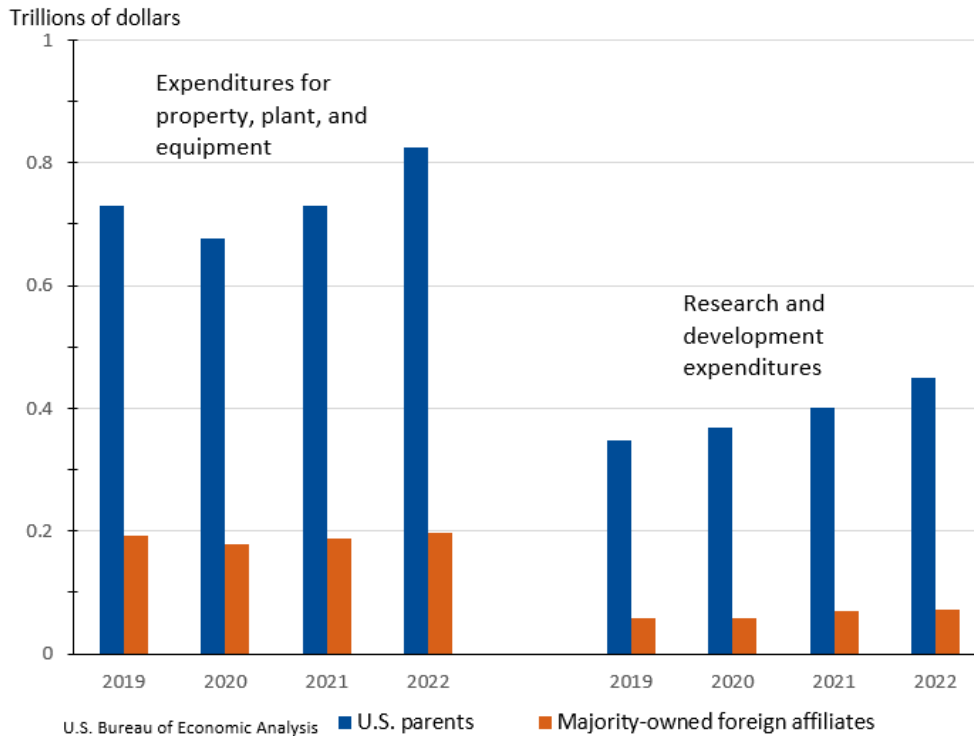

Worldwide expenditures for property, plant, and equipment of U.S. MNEs increased 11.4 percent to \$1.0 trillion. Expenditures by U.S. parents accounted for \$826.1 billion (table 1), and expenditures by majority-owned foreign affiliates accounted for \$196.7 billion (chart 3).

Worldwide research and development expenditures of U.S. MNEs increased 10.8 percent to \$521.5 billion. U.S. parents accounted for expenditures of \$448.9 billion (table 1), and majority-owned foreign affiliates accounted for \$72.6 billion (chart 3).

[Additional statistics](#) on the activities of U.S. parent companies and their foreign affiliates including sales, balance sheet and income statement items, compensation of employees, trade in goods, and more are available on BEA’s website. More industry detail for U.S. parents and more industry and country detail for foreign affiliates are also available on the website.

## Definitions

A **U.S. multinational enterprise** is composed of the U.S. parent and its foreign affiliates.

A **U.S. parent** is a person (in the broad legal sense to include any individual, partnership, corporation, or other form of organization), resident in the United States, that owns 10 percent or more of a foreign business enterprise, referred to as its **foreign affiliate**.

A **majority-owned foreign affiliate** is a foreign business enterprise in which the combined ownership of all U.S. parents, either directly or indirectly, exceeds 50 percent.

**Employment** covers the total number of full-time and part-time employees on the payroll at the end of the year.

**Value added** is the value of the final goods and services produced by a firm's labor and property. Value added represents the firm's contribution to the gross domestic product (GDP) of the firm's country of residence. The estimates of value added in this release were prepared by

summing cost and profit data collected in BEA's surveys of U.S. direct investment abroad and are conceptually consistent with BEA's estimates of U.S. value added by industry.

**Expenditures for property, plant, and equipment** covers total expenditures for land and depreciable structures and equipment; they are gross of any sales, retirements, or transfers of previously owned tangible assets.

**Research and development (R&D) expenditures** includes expenditures for R&D performed by the U.S. parent or the affiliate, whether the R&D was for their own use or for use by others and irrespective of the source of funding.

## Statistical conventions

The statistics on the activities of U.S. MNEs are based primarily on data reported in the [Annual Survey of U.S. Direct Investment Abroad](#) (BE-11) conducted by BEA. The statistics provide information on the operations and finances of U.S. parent companies and their foreign affiliates. The statistics on foreign affiliates cover the entire operations of the affiliate, irrespective of the percentage of U.S. ownership.

To compute the U.S. parent share of U.S. private industry employment, BEA used comparable statistics at the aggregate level for all U.S. private industries from BEA's National Income and Product Accounts in line 3 ("Private industries") of "[Table 6.4D. Full-Time and Part-Time Employees by Industry](#)."

To compute the U.S. parent share of U.S. private industry value added, BEA used comparable statistics at the aggregate level for all U.S. private industries from BEA's GDP by Industry Accounts in line 2 ("Private industries") of the table "[Value Added by Industry](#)."

## Related statistics

Statistics on the activities of U.S. MNEs are one part of a broader set of U.S. International Economic Accounts that, taken together, provide a comprehensive, integrated, and detailed picture of U.S. international economic activities.

Statistics on direct investment and multinational enterprises include annual statistics on the [activities of U.S. affiliates of foreign MNEs](#), [detailed annual and quarterly statistics on direct investment](#), and annual statistics on [new foreign investment in the United States](#).

Statistics on [international services](#), released annually, include detailed annual information on trade in services and

on services supplied through the channel of direct investment by affiliates of MNEs.

The [International Investment Position \(IIP\) Accounts](#) are released quarterly. The IIP is a statistical balance sheet that presents the dollar value of U.S. financial assets and liabilities with respect to foreign residents at a specific point in time.

The [International Transactions Accounts \(ITAs\)](#) are released quarterly. The ITAs are a statistical summary of economic activity between U.S. residents and the residents of other countries.

[U.S. international trade in goods and services](#), released by BEA and the U.S. Census Bureau, provides monthly statistics on trade in goods and services.
